

PRODUCT REQUIREMENTS DOCUMENT (PRD)

Product Name: Oakvale Jobs Board

Target Audience: Local Employers (Nigeria) & Diaspora Sponsors (UK, US, Canada, etc.)

Document Purpose: Complete technical and functional specifications for development, detailing the subscription architecture, employer segmentation, feature gating, interview credit mechanics, and payment processing.

1. System Overview & Core Principles

The Oakvale Jobs Board connects verified alumni caregivers graduating from Oakvale Learning courses with families and institutional employers.

The platform supports two distinct employer user journeys based on hiring context:

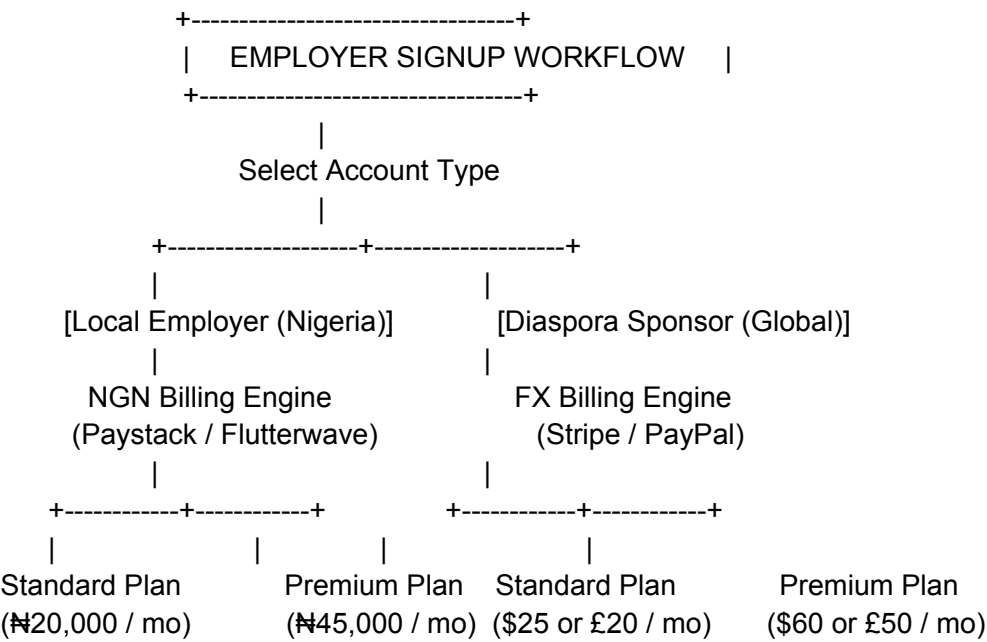

1. **Local Employers:** Families or clinics based in Nigeria hiring caregivers for domestic placements.
2. **Diaspora Sponsors:** Overseas sponsors (UK, US, Canada, Europe, etc.) hiring and managing care remotely for relatives residing in Nigeria.

Universal Baseline & Design Principles

- **Decoupled Platform Fees:** All platform subscriptions and credit purchases represent **Software Access and Matchmaking Fees** paid directly to Oakvale. They are strictly separate from caregiver salary negotiations.
- **Universal Credibility:** Candidate credibility and basic verification (Oakvale Certification, verified government ID, police clearance status) are universal across all tiers. Differentiation is driven by **payment currency compatibility, remote oversight tools, and interview allowances**.

2. Employer Subscription Architecture

Pricing and features are structured across two billing tracks: **Standard Access** and **Premium Hire Access**.

Plan Comparison & Feature Gating Matrix

Feature / Capability	Local Standard (₦20,000 / mo)	Local Premium (₦45,000 / mo)	Diaspora Standard (\$25 USD / £20 GBP / mo)	Diaspora Premium (\$60 USD / £50 GBP / mo)
Billing Engine	Paystack / Flutterwave (NGN)	Paystack / Flutterwave (NGN)	Stripe / PayPal (USD, GBP, CAD)	Stripe / PayPal (USD, GBP, CAD)
Candidate Directory	Full Verified Local Pool	Full Verified Local Pool	Full Verified + Diaspora-Ready Pool	Full Verified + Diaspora-Ready Pool
Profile Vetting Pack	Basic Profile & Badges	Basic Profile & Badges	Full Vetting Pack (Video Intro, ID, Police)	Full Vetting Pack (Video Intro, ID, Police)

			Report)	Report)
Virtual Interview Allowance	1 Interview / month	5 Interviews / month	1 Interview / month	5 Interviews / month
Remote Care Oversight Suite	Locked	Locked	Unlocked (Digital Care Logs & Progress Reports)	Unlocked (Digital Care Logs & Progress Reports)
Add-On Interview Credits	₦5,000 / credit	₦5,000 / credit	\$7 USD or £5 GBP / credit	\$7 USD or £5 GBP / credit

3. Detailed Functional Modules & User Stories

Module 1: Account Setup & Employer Onboarding

US-1.1 Employer Account Registration

As an employer creating an account,

I want to select whether I am hiring locally or sponsoring care from abroad,

So that the platform configures my currency, payment gateways, and features correctly.

- **Acceptance Criteria:**

1. Signup form presents a required toggle:

- **LOCAL_NG:** "I am hiring locally within Nigeria."
- **DIASPORA_GLOBAL:** "I am sponsoring/managing care remotely from abroad."

2. Selecting **LOCAL_NG** sets primary currency to **NGN** and restricts checkout to Paystack/Flutterwave.
3. Selecting **DIASPORA_GLOBAL** prompts currency selection (**USD, GBP, CAD**) and routes checkout to Stripe/PayPal.
4. System updates user profile schema with **account_type**, **currency**, and **country_code**.

Module 2: Candidate Discovery & Vetting Pack Access

US-2.1 Enhanced Vetting Pack (Diaspora Feature)

As a Diaspora Sponsor,

I want to view candidate video introductions and downloadable background verification documents,

So that I can assess candidates without requiring an in-person meeting.

- **Acceptance Criteria:**

1. Profiles viewed by active **DIASPORA_GLOBAL** accounts render the **"Enhanced Vetting Pack"** section containing:
 - Embedded 60–90 second video introduction player.
 - Downloadable PDF bundle containing verified ID confirmation, police clearance status, and Oakvale transcript summary.
2. If a **LOCAL_NG** subscriber attempts to open an Enhanced Vetting Pack, display an upgrade modal explaining the Diaspora Sponsor feature.

Module 3: Virtual Interview Allowance & Credit Engine

US-3.1 In-Platform Virtual Interview Scheduling

As an active subscriber,

I want to use my plan's interview allowance or purchase extra credits to schedule live virtual calls with carers,

So that I can screen candidates directly through the platform.

- **Acceptance Criteria:**

1. Account balances initialize monthly with allocated credits:
 - Standard Plans: `interview_credits = 1`
 - Premium Plans: `interview_credits = 5`
2. Clicking "*Schedule Virtual Interview*" checks current `interview_credits`:
 - If `interview_credits > 0`: Deduct 1 credit, trigger integrated video call link generation (or schedule confirmation), and notify the candidate.
 - If `interview_credits == 0`: Open modal displaying options:
 - *Option A*: Upgrade to Premium Plan.
 - *Option B*: Buy 1 Standalone Interview Credit (~~₦~~5,000 for NGN accounts; \$7 USD / £5 GBP for Diaspora accounts).
3. Additional credit purchases process instantly via the assigned account gateway and increment `interview_credits` immediately.

Module 4: Remote Oversight & Care Management Suite

US-4.1 Digital Care Log Workspace (Diaspora Exclusive)

As a Diaspora Sponsor with an active candidate hired on the platform,

I want the caregiver to fill out digital care logs,

So that I receive regular updates on health metrics, meals, and daily activities from abroad.

- **Acceptance Criteria:**

1. Marking a candidate as "Hired" under a `DIASPORA_GLOBAL` account generates a shared **Care Log Workspace**.
2. Caregivers receive a mobile-optimized entry portal (web form/WhatsApp trigger) to submit routine care updates (e.g., blood pressure readings, medication times, general notes).
3. Submissions trigger automated email digests and dashboard notifications to the Diaspora Sponsor.

Module 5: International Relocation Guardrail

US-5.1 Relocation Intent Interceptor

As the platform operator,

I want to intercept requests where an employer intends to hire a candidate for relocation outside Nigeria,

So that international recruitment compliance and specialized placement fees are enforced.

- **Acceptance Criteria:**

1. When creating a job posting or sending a booking request, if any field or message contains overseas relocation keywords (e.g., *"relocate to UK"*, *"visa sponsorship"*, *"work permit"*), the system flags the interaction.

2. Display an automated prompt:

"Looking to hire for relocation outside Nigeria? International placement requires specialized visa and compliance verification. Your inquiry has been routed to our Enterprise Placement Desk."

3. Prevent standard interview credit deduction and notify the Oakvale Enterprise admin team.

4. Technical Architecture & Database Schema

Employer Profile Schema (**employer_profiles**)

JSON

```
{
  "employer_id": "emp_883204",
  "user_id": "usr_991023",

}

```

5. Third-Party Integration & Webhook Requirements

1. Payment Gateways:

- **Paystack / Flutterwave:** Webhook endpoint </api/v1/webhooks/paystack> to listen for [charge.success](#), [subscription.create](#), and [subscription.disable](#) to toggle NGN accounts.
- **Stripe / PayPal:** Webhook endpoint </api/v1/webhooks/stripe> to listen for [customer.subscription.updated](#) and [invoice.payment_succeeded](#) to maintain foreign currency accounts.

2. Video Session Gateway: Integrate Daily.co, Twilio Video, or Zoom API for auto-generating bounded video call links upon interview credit deduction.
